This is a quick note to provide details regarding yesterday's V4 Pilot Review virtual meeting.

61 people managed to attend, representing 21 police force areas and various other organisations. The 2.5 hour meeting included some superb first hand reviews from North Wales, West Mercia and Northamptonshire forces.

We explained the new elements provided within the V4 system and described the migration process. We had a guest presentation from Rhiannon from CACI who explained the Acorn geo-demographic and wellbeing data sets and I gave a quick demonstration regarding how Acorn and origins data can be applied to engagement strategy on the system.

We answered a few very useful questions from several forces regarding the transition and I am assured the meeting was really positive and left people excited about the migration.

Videos and presentations

We recorded the event and I have split the lengthy recording into the main presentations. You can find each video, along with lots of information regarding the upgrade/migration process on the following page within our help Centre:

Thank you

I would like to thank everyone that attended the event, my team at VISAV for working so hard to develop and support the new system and most of all Supt. Helen Corcoran from North Wales, Ch Insp. Ed Hancox from West Mercia and Alan Earle from Northamptonshire for their superb and insightful presentations.

Next Steps

If after watching the presentations you are interested in upgrading to V4 with the next batch of forces, please contact chris@visav.co.uk to register an interest and hear more.

My Diary

Please note, the link below, which has been updated lately will enable you to access my diary and book a meeting with me to suit your schedule. Please feel free to use this anytime. I remain, as ever, at your disposal.
