Dear Joe,

Rapport App Demo

As mentioned on the last Dev Board Update, we are developing Rapport as a smartphone App so in **Version one** it will enable your users to add and find members even when out of standard mobile or wifi coverage.

We are holding a 30-minute **online meeting today at 13:00** for those who would like to have a sneak peak at the app and see what we have in mind. This will be an opportunity to raise any questions regarding the processes, security and to suggest functionality.

We are looking for some volunteers to test the V1 Beta version of the Rapport app. The beta version will only have the ability to add users and review local members (no message sending at this stage). This is simple a test of the basic interface and stability rather than the advanced functions. We need people who have an Alert Admin account and ideally Android equipment.
